

# *Entering “A Field of Possibility”*

## **With Diana Gazes & the Lightteam**

Come to an amazing Celebration and Reunion as we invite Great Beings of Light from the far reaches of the Universe to join us in opening a high frequency, quantum **“Field of Possibility.”** This gathering is designed to support you in gracefully moving through the great acceleration now occurring on Earth.

**“A Field”** is a unique inter-active environment where participants often have a direct experience of the Light Realms. *It is a “Cosmic Think Tank” where you can brainstorm with your Soul...* and recall a promise that the time would come of full remembrance of who you are and the Divine Purpose you came to fulfill. When the *Field* is open, possibilities overflow:

- ***Your natural Genius and Creativity are awakened as incarnations of negative thought forms, held frozen on sub-atomic levels for centuries, are lifted through the Grace, Divine Love and deep caring of these great Beings of Light.***
- ***Direct communication with your Authentic Self & Source is re-established in oneness as the heart opens.***
- ***A new level of Health and Rejuvenation occurs as every particle of your cellular structure and energy rise up to match the clear high frequency of the “Field.”***

Every time you have contact with a *“Field,”* deeper, more profound experiences of Clearing, Activations and Divine Initiations occur. Your human mastery gets *“switched on.”* You then become a *“Field of Possibility”* yourself, and radiate these energies in business and visionary new projects, with your family, and in loving relationships. Everyone and everything around you benefit, including nature and the environment. All begin to *“switch on”* and each becomes an activated *“Field”* as their own connection to Source opens, enabling them to stand steady in any situation.

**In each gathering, after the group is cleared and activated, we will then work as a team with the Light Realms to clear and activate the Divine Blueprint and Purpose of your city and its natural balance and harmony with nature.**
